Hackathon Logistics — everything you need to know before you build.

BBS x Ramp Hackathon: Automate the Old Way

Automate an outdated financial workflow using the newest AI tools.

3 rounds to the final

From registration to a live final at Ramp's office.

01

Register + pitch

Form a team of 2–3. Submit a 1–2 minute video pitch and a 150–250 word idea brief.

02

Build sprint

Submit built-out mockups and briefs, or working code with a 3–5 minute demo.

03

Live final

Present in person to Ramp engineers at the San Francisco office on November 19.

Key dates

Every deadline you need to know.

OCT 12

Round 1 opens

Registration, team formation, and idea submissions begin.

OCT 22

Round 1 due

Submit your roster, video pitch, and written brief.

OCT 28

Round 2 begins

Advancing teams are notified; the build sprint starts.

NOV 7

Round 2 due

Mockups and briefs, or code and demo, are due.

NOV 12

Finalists announced

Invitations go out for the live final.

NOV 19

Live final

Evening at Ramp's San Francisco office.

Watch your inbox after this session — we'll email everything you need to apply.

Who can enter?

Open to every UC Berkeley student.

01 Any major and any experience level.

02 Teams of 2–3 students.

03 Choose your lane: design a product or build working code.

Prizes & opportunities

What finalists can win — and who they meet.

$2,500

Prize pool

Cash prizes awarded across the competition.

Interview

Guaranteed interviews for finalists

Every final-round participant receives a guaranteed Ramp interview.

Live

Present live to engineers

Demo directly to Ramp engineers at the San Francisco office.

Judging rubric

Draft weights — subject to Ramp confirmation.

35%	Technical execution — quality of the build and architecture.
25%	Problem fit — relevance and clarity of the problem.
20%	Product polish — usability and demo clarity.
10%	Creativity — originality of the approach.
10%	Presentation — pitch and Q&A quality.
